

Dial Indicator Thickness Gauge

Item number: 7301A

Images

Description

This Dial Indicator Thickness Gauge enables you to measure tube wall thickness, film/paper etc. with flat contact points, resp. lens thickness or groove depth.

Features

Inch-Metric:	Metric
Functions:	Ceramic disc contact points
Range:	0 - 10 mm
Graduation:	0.01 mm
Parallelism:	5 μ m
Indicator No.:	2,046AB
Max. measuring depth:	30 mm

Measuring force:	≤ 1,4 N
Contact point:	Thread M 2.5 x 0.45 mm
Type:	Ceramic disc contact points
Mass:	205 g
Delivered:	In a box with spindle lifting lever 21AZB149
